### **DETAILED ACTION**

1. This communication is responsive to amendment A, filed 10/12/1999.

2. Claims 1-9 are pending in this application. Claims 1, 4 and 7 are independent claims. In the amendment, filed on 10/12/1999, claims 2-9 were added, and claim 1 was amended. This action is made final.

# Claim Rejections - 35 USC § 103

- The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 4. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilson et al. ("Wilson", U.S. # 5,392,207) in view of Kurtenbach (U.S. # 5,867,163).

As per claim 1, Wilson teaches, in an iconic programming system containing an existing network of connected icons (col. 2, lines 38-42), a computer-implemented method for tracing the execution of icons (fig. 5, col. 4, lines 29-32; col. 5, lines 53-55), the method comprising the step of executing a plurality of the icons (fig. 4, col. 2, lines 38-43); highlighting the icon which is currently being executed on the display (fig. 4, col. 9, lines 58-60). Wilson, however, fails to teach the steps of setting a flag for each icon being executed, and highlighting each icon being set by its corresponding flag. Kurtenbach teaches a method of executing a sequence of commands, wherein the icons of the commands are highlighted as the commands are executed (abstract). Therefore, it would have been obvious for an artisan at the time of the invention to combine Kurtenbach's teaching

Application/Control Number: 09/033901

Art Unit: 2773

with the method of Wilson in order to provide the user visual feed back on the trail of icons already executed.

Furthermore, although the method of Wilson and Kurtenbach does not explicitly refer to setting a highlighting flag for each icon to indicate its status of being in an execution mode, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make internal use of flags in such a programming system in order to allow differentiation of those icons that are being executed from those that are not.

As per claims 2-3, the steps of performing the setting step during the executing step, receiving an input subsequent to the executing step and performing the highlighting step in response to the receiving step are detail implementation of claim 1. It would have been obvious to one having ordinary skill in the art at the time the invention was made to apply this details to the teachings of claim 1 in order to improve and speed up the operation by allowing concurrent processing of setting and highlighting the appropriate icons.

Claims 4-6 are similar in scope to claims 1-3, and therefore are rejected under similar rationale.

Claims 7-9 are similar in scope to claims 1-3, and therefore are rejected under similar rationale.

# Response to Arguments

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2773

### Conclusion

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

# Responses

7. Responses to this action should be mailed to:

# Commissioner of Patents and Trademarks Washington, D.C. 20231.

If applicant desires to fax a response, (703) 308-9051(52) may be used for formal communications or (703) 308-6606 for informal or draft communications.

Please label "PROPOSED" or "DRAFT" for informal facsimile communications. For after final responses, please label "AFTER FINAL" or "EXPEDITED PROCEDURE" on the document.

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive, Arlington. VA., Sixth Floor (Receptionist)

# Inquires

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sy D. Luu whose telephone number is (703) 305-0409. The examiner can normally be reached on Monday - Thursday from 6:30 am to 4:00 pm. The examiner can also be reached on alternate Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matt Kim, can be reached on (703) 305-3821.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3800.
